**SIGNALLING  
SOLUTIONS FOR  
AIRPORTS**

# SIGNALLING SOLUTIONS FOR AIRPORTS

The appropriate signalling of every possible danger through the airport maximises the safety, efficiency and operability of the entire structure. Sirena, thanks to its 48 years of experience in manufacturing acoustic and visual signalling devices, has developed a comprehensive product range that is now widely used in airports around the world.

## EMERGENCY | AID

Signalling emergency exits, locating first aid vehicles and providing acoustic warning sirens help to reduce reaction times and minimise risks in case of an accident.

RECOMMENDED PRODUCTS  
E-LITE  
SIR-E-LED  
MICROLAMP

## CHECK-IN AREA

Signalling the operational status in the baggage storage and check-in area helps to organise the passengers' flow.

RECOMMENDED PRODUCTS  
EOS  
XLF RGB  
E-LITE RGB  
MINI TWS

## SECURITY CHECKS

Signalling in metal detectors and security controls areas helps to keep the process efficient and to give immediate warning in case of danger to both operators and passengers.

### RECOMMENDED PRODUCTS

- EOS
- XLF RGB
- E-LITE RGB
- MINI TWS

## FINGERS

During finger boarding operation, it is recommended to have a signalling device that gives immediate warning of the status of the unit.

### RECOMMENDED PRODUCTS

- FLR
- MICROLAMP
- CTL1200

## BAGGAGE RECLAIM AREA

Beacons make possible to warn and organise the flow of people in the baggage reclaim area at peak times.

### RECOMMENDED PRODUCTS

- EOS
- ELYPS
- MINI TWS

## VEHICLES INSIDE THE TERMINAL

Vehicles moving within the terminals must be equipped with type-approved signalling lights to facilitate the identification and movement of the vehicle.

### RECOMMENDED PRODUCTS

- EVOLUX
- FLT LED ELEV
- BKA

## AIRPORT VEHICLES

Vehicles operating on the airside of the airport must be equipped with ICAO-certified warning lights.

### RECOMMENDED PRODUCTS

- AWL 810C
- BKA WN

## FLIGHT OBSTACLE WARNING

Buildings that may represent obstacles, such as control towers, must be equipped with low and medium intensity warning lights.

### RECOMMENDED PRODUCTS

- NAVILITE
- OFC

# DISCOVER OUR SIGNALLING DEVICES FOR EACH APPLICATION

## MORE THAN SIGNALLING, ALSO EN54 EVACUATION SYSTEMS

Since 1974, Sirena has been designing, developing and manufacturing high quality acoustic and luminous signalling devices.

Since 1974 Sirena has been designing, developing and producing top quality audible and visual signaling devices. Tradition, passion and innovation are the fundamental values of our long history that allow us to continue to do what we do best: set signaling standards.

### Why choose Sirena

► **HIGH QUALITY AND INNOVATION**

Advanced technologies and complete production control.

► **FLEXIBILITY**

Customised and customer-oriented solutions.

► **MADE IN ITALY**

Care for design and precision workmanship.
