

**Basic data**

Size Series RF-OS  
 Application for reflection light barrier

**Optical data**

Light type polarized and non-polar. light  
 Remission 0.2° 6,597 mcd/lx

**Mechanical data**

Ambient temperature Ta min. -20 °C  
 Ambient temperature Ta max. 100 °C

Housing material PC  
 Active surface 17.7 cm<sup>2</sup>  
 Type Cube corner 4 mm  
 Mounting type Diameter 6.0 mm  
 Design Cylinder with expanding rivet

**Remarks**

The reflection degree is maximum with perpendicular beam of light and if the reflector stands in the angle of rotation well for the polarization direction of the light.
