

Basic data

Size Series RF-OS
Application for reflection light barrier

Optical data

Light type polarized and non-polar. light
Remission 0.2° 5,097 mcd/lx

Mechanical data

Ambient temperature Ta min. -20 °C

Ambient temperature Ta max. 60 °C
Sensing surface material PMMA
Housing material Foil
Active surface 62.5 cm²
Type Reflex foil, micro pyramids
Mounting type self-adhesive
Design Foil section, rectangular

Remarks

The reflection degree is maximum with perpendicular beam of light.
