BALLUFF
sensors worldwide

PI0264

Electrical data:

Mechanical data:

Antenna	Round
Operating temperature	-25...85 °C
Mounting in steel	non-flush
Housing material	EP
Storage temperature	-40...95 °C
Size	$\varnothing 30 \times 1,6$ mm
Shock	100g/6ms per EN 60068-2-27 and 100g/2ms per EN 60068-2-29
Vibration	20g, 10...2000Hz per EN 60068-2-6
Read Mode	Static only

General data:

Memory Size	192 byte
Harsh Environment	No

Additional information:

Read/write codetag $\varnothing 30 \times 1,6$, 192 Byte
