KMH/Q label holder (halogen-free / high packing density) 

High-quality, halogen-free, two-part label sleeve for the most exacting requirements in the labelling of wires, cables and conduits. They hold the identis (BK) and the ACS labels type KS or DM. The label holders are fixed in place with cable ties. It matches the appearance of label sleeve KTH/Q.

-40 – 160 °C

V0

TPU

Halogen-free

Use in electrical systems and installations of all kinds

Type	Order no.	Length mm	for Label	Number of identis BK23 / BK30	Max. width of cable ties mm	Recommended min. diameter mm	Pack qty.

Thermoplastic polyurethane (TPU)

Material: Thermoplastic polyurethane (TPU)

Outstanding features of this material include its high flexibility even at low temperatures, high continuous operating temperature, high resistance to tear propagation and very good restoring forces, high resistance to grease, oil, solvents, high-energy radiation and ultraviolet light.

Continuous operation use: 35 – 120 °C Fire classification: V0 based on UL94 Halogen-free under DIN/VDE 0472, Part 815
